

Saving the files in your content collection in Blackboard allows you to have an “offline” copy of the files. These files could be stored on your network drive, or uploaded to a new course/organization in Schoology.

The screenshot shows the Blackboard interface for a course titled "DVHS SY13-14 Java I (Spring - Gafford) 11372_PTP3050T_1314_S2_003". The left sidebar contains a "COURSE MANAGEMENT" section with a "Control Panel" sub-section. The "Content Collection" link is highlighted with a red box and a red arrow. The main content area shows an "Announcements" section with a message dated Monday, April 14, 2014, about Spring Break.

1. Open your course or organization.
2. Click on Content Collection under the control panel.

The screenshot shows the same Blackboard interface, but the "Content Collection" link in the sidebar is expanded into a dropdown menu. The first option, "11372_PTP3050T_1314_", is highlighted with a red box and a red arrow. The main content area remains the same, showing the "Announcements" section.

3. Click the first link under content collection. It will match your course/organization ID.

4. Click the check box to "Select" all of the content. You can select individual files if you'd prefer, but to make sure you get everything you should select all.
